## COVID-19 VISITING YOUR GP SURGERY

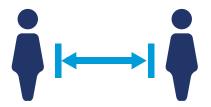

## PLEASE WEAR FACE COVERINGS.

COVID-19 PROTECTIONS ARE STILL IN PLACE IN THIS SURGERY.

In line with current Government guidance patients are required to continue to wear a face covering in all healthcare settings.

Face coverings primarily protect others, so doing so – unless exempt – is key to preventing spread of infection.

## CONTINUE TO RESPECT (2M) SOCIAL DISTANCING

If you have symptoms you must get a **PCR test** as soon as possible & before visiting your GP. **Rapid lateral flow tests should not be used to confirm infection.** 

It's vital that you and anyone in your household **isolate until you receive your test** result, and for 10 days thereafter if the result is positive.

## WASH/SANITISE HANDS REGULARLY
